# Qualitative Information on Financial Results

#### Analysis of Operating Results

During the first quarter of the current fiscal year, the global economy is expected to continue picking up despite continued high interest rates in United States and downside risks to the economy in China.

In the fiscal year under review, the final year of the Third Medium-Term Management Plan, the company has adopted the "Create and Develop Global IP" as its management policy and is implementing various measures. To expand the Company's lineup of titles, "AAA Studio" was established. In order to achieve medium- to long-term growth, we will continue to build a system that enables us to release large-scale titles on a continuous basis.

In the first quarter, the sales of console sector are mainly from repeat sales such as "Rise of the Ronin". The revenue from mobile sector is composed by the existing titles.

While new smartphone titles contributed in previous year, there were no new titles delivered in the quarter, resulting in a year-on-year decline in sales. The costs increased due to an increase in the number of mobile titles operating in-house, resulting in a year-on-year decline in operating profit.
